EDWARD REYNOLDS, Editor.  
MIDDLETOWN, DEL.

SATURDAY MORNING, OCT. 27, 1877.

SENATOR BAYARD will please accept our acknowledgements of the reception of the Congressional Globes sent us by him a few days ago.

"Mr. Thomas and myself" didn't electrify Baltimore worth a cent the other day—at least not in the way Mr. Fulton promised Mr. Hayes he would. The city was somewhat electrified, and the State too, but not just exactly in the way and after the manner "Mr. Thomas and myself" would like to have had it.

THE BALTIMORE ELECTION.—The result of the election for Mayor and Council, in Baltimore, on Wednesday, was a complete and overwhelming triumph for the Democratic ticket, and a consequent utter defeat of the combination of Radicals and communists which opposed it. The vote polled was only three thousand short of that cast at the Presidential election last fall. George P. Kane, the Democratic candidate for Mayor, received 83,178, against 17,369 for Thompson, Republican, and "Workingman." Kane's majority over both his competitors was 15,274. Thompson carried two out of the twenty wards of the city—the 13th and 20th. Both branches of the City Council are unanimously Democratic.

The people of Baltimore did a sensible thing on Wednesday when they repudiated by such a splendid majority the communistic notions of Thompson and his associates. All this stuff about the rights and wrongs of laboring men, and the oppressions and tyranny of capitalists is the veriest nonsense. There is no such thing as oppression of labor by capital, and no such thing as the right of labor as opposed to capital, and no necessary contest between the two. As in all other things the supply regulates the demand. Capitalists will not pay high wages to have work done when they can get the same work done for low wages. When laborers are few and work plenty wages will be high; and, vice versa, when work is scarce and laborers plenty, wages will be low. Any attempt to change this natural state of things by violent means is ineffectual and should be treated as such. From time immemorial there have been visionary individuals who talked about the injustice of some persons having much property and others little, and who wanted to see a general distribution and equalization of all property. But the world has kept on in the same old way; some men have been favored by fortune and accumulated great riches, while others have had nothing but poverty and rags as their lot. The "good time" these dreamers predicted has never come and never will come. Every act of violence committed by the laborer against the capitalist, and every attempt made to create or prolong a contest between the two elements, is just so much injury done to the business interests of the country and tends just that far to make and continue "hard times." By coalescing with the Thompson movement the Republican party did a very foolish thing, from the effects of which it will take it a long while to recover. They hoped to catch the votes of the laboring men, but the true, sensible laborer knows that his interests are identical with those of the men from whom he expects employment. Baltimore, as the result proved, contains a large number of these sensible men, hence the defeat of "citizen" Thompson and his allies.

CAPTURE OF THE CUBAN PRESIDENT.—The capture of Don Thomas Estrada, President of the republic of Cuba, and other officials of that unfortunate political enterprise, reduces the situation in Cuba to very simple terms. The Cuban Secretary of War and others fell in an engagement a few days ago, indicating that the Spaniards have of late been pushing the republican forces into close quarters. The latter have for some time been reduced to mere raiding parties, and while able to inflict much injury by sudden descents upon plantations and towns temporarily exposed by the absence of Spanish troops, their strength has in no instance enabled them to secure any substantial position outside of the territory forming the base of their operations. It has been wonderful, however, with what tenacity they have held so long, baffling for years the efforts of our adversaries to crush them, and inflicting losses which render the success of the Spaniards dearly bought. With the leaders of the rebellion captured or killed, with no resources for establishing an independent government and no prospect of recognition or support from other nations, their cause, while deserving a better fate, has long been hopeless, and their existence precarious and desperate.

SHORT DRESSES.—It is stated that short walking dresses are now the mode in Paris, and as American women are the slaves of the fashion set in that fine city it would be well that they be not too long in finding out the facts about the short dresses. Let us congratulate the "fair" that between the practice of dragging their dresses through the mud and this other extreme of carrying the long skirt in the hand, Paris has at last hit the true average by introducing dresses that will neither sweep the pavements nor impede the wearers when walking.

CLINTONVILLE, in Clinton county, N. Y., is badly afflicted with small pox. Twenty persons have died of the disease there within a few days.

## THE EASTERN WAR.

ANOTHER GREAT RUSSIAN VICTORY. LONDON, October 26.—A Russian official dispatch dated Tientsin, 25, says: "Yesterday, after a desperate engagement of ten hours duration, General Gourko's detachment, co-operating with a portion of the Imperial Guard, captured a strong Turkish position between Gurji, Dubnik and Teliche. General Gourko then stationed himself on the Sofia road, strengthening his position with new fortifications. This engagement also resulted in the capture of Achmet Pasha, together with his chief of staff, many other Turkish officers, about 2,000 foot soldiers, and an entire regiment of cavalry. Four cannon and a quantity of rifles and ammunition were also captured. Our loss is unknown, but must have been considerable."

In regard to General Gourko's victory Chevet Pasha's official dispatch from Orhanie claims that the attack on Teliche was repulsed, but admits that the Russian cavalry has posted itself at Dubnik and destroyed the telegraph lines.

A Bucharest dispatch says: A telegram from Gorny Studen announces that Prince Sergius, of Leuchtenburg, aide-de-camp of the Emperor of Russia, was killed in the recent reconnaissance of the Carzewitch.

The Russian losses to the 18th inst., are officially stated to be 60,100 men. The surgeons attached to the English Plevna hospital report that on the 18th there were 4,500 wounded there. Private houses had been converted into hospitals. The want of lint and medicines was greatly felt.

The Daily News' Bucharest correspondent writes that after making a tour of inspection of the Carzewitch's position he is convinced that a winter campaign is impossible with the existing transport system. Already fodder sometimes fails for days.

A special to the Vienna Presse says Kara has been bombarded and the city is on fire. The place is provisioned for four months. Suleiman Pasha telegraphs under date of October 25th, as follows: "Today twelve Russian battalions with cavalry and artillery attacked the works of Rostuchik. The Turks made a sortie and forced the Russians to retire into their retrenchments at Tyrnovo with a loss of four hundred and fifty killed and wounded. Four Russian divisions attacked the Turkish line of the Lom from Jovanefik near Kosoovo on the right to Solenok on the left. They were repulsed with a loss of eight hundred killed and some prisoners. The Turkish loss was one hundred and thirty-four killed and sixty wounded."

A special dispatch to the Times states that the Servian Skupchina will not meet before December, so the question of war or peace cannot be decided. The Turkish troops on the Southern frontier have consequently been withdrawn and sent against the Montenegrins.

ACCIDENT TO SENATOR BLAINE'S DAUGHTER.—A private letter from Augusta, Me., gives the particulars of the sad accident to Senator Blaine's daughter Alice. She is sixteen years of age, very pretty, full of talent, charming and popular. Talking with a gentleman on Saturday evening in the parlor of her father's house, she toyed and played with a fine pistol that belonged to her brother. The visitor begged her to put it away, although it was unloaded, and spoke gravely of using empty pistols as playthings. When he arose to go away she laughingly ran up stairs to her brother's room, got a cartridge and put it in the cylinder, and came bounding down, calling to her friend, who was passing out of the front yard, to see her shoot. But before she had leveled the weapon, in her gleeful hurry she pressed the trigger and the ball struck between her eyes, passing upward. Miss Blaine clasped her head with her hands, and crying, "Oh, I am shot," fell to the floor. Surgeons have probed for the ball, but cannot find it. The child suffers terribly. Inflammation of the brain is feared, but the surgeons give the family hope.

HOW SHE CHANGED THEM.—The other day a groceryman at Vallejo, California, gave a large party, at which the daughter of the carriage painter, who lived next door, created a decided sensation. It was not that she was more handsomely attired than the other ladies present, but that when she entered the "dance of death" she was observed to display the only pair of pink silk stockings in the room. She left the house for a few moments at the expiration of the dance, and in the next walk exhibited a pair of light blue dittoes. An hour later her crushed and exasperated female friends beheld these supplemented by further hose of a delicate chocolate shade. And so it went on, until her miserable rivals determined to follow her the next time she disappeared. They traced her to her father's paint shop in the back yard, where she was discovered, brush in hand, and about ornamenting her netter extremities with a final artistic coat of light salmon. The exulting glee rustled the back with the laughing news, but it was too late. The men were all too tight to understand, the music had gone home, and the lights were being put out. Thus it is that fraud and duplicity triumph, while honest simplicity walks around with a darn on its calf and a hole in its heel.

PEACH CULTURE AT MARLBOROUGH.—The large prices received this fall by those who were fortunate enough to have peaches on their farms, have induced a great majority of the Marlborough fruit growers to go extensively into the business of peach raising. Those having apple orchards, which of late years have not been very profitable, are cutting the trees down and setting peach trees in their places. Strawberries have been torn out promiscuously to give room to the peach trees, which have grown very popular since last spring. It is authoritatively said that one agent alone has received orders for twelve thousand and another five thousand trees to be delivered in the spring. The total number that will be set out in the spring by different parties at Marlborough, it is said, will exceed forty thousand. The variety which is the most liked are called the "Smock," and nearly all the trees ordered are of this kind and of the Crawford's late, early trees being in disfavor.—Poughkeepsie (N. Y.) News.

## Washington Letter.

WASHINGTON, D. C., Oct. 24, 1877.

Congress has had smooth sailing so far. In its first week the House was simply organized, and was thereafter, as it still is, engaged in discussing rights of individual members to seats. So far the Democratic majority has been extremely liberal in its treatment of the minority. The case under discussion now is that of Belford and Patterson, from Colorado. Belford will probably be sworn in, not so much on account of any right he has to the seat, as because of the Democratic liberality before mentioned. By apparent compromise between the Speaker and Republicans this Colorado case was considered Monday to the exclusion of the regular business of that day—the presentation of bills, petitions, etc. The object of this was to exclude a resolution, to be presented by Democrats, endorsing the Southern and civil service policies of the administration. This was intended as a trap for the Republicans who naturally dreaded it, and believed the resolution would be as damaging to his own party as to the other. Meanwhile, the Republican members are consulting each other. Mr. Hayes himself, to find out some way in which harmony may be made to appear to exist in the party. The contribution of the latter gentleman to the accomplishment of so desirable a result is a concession to members in the matter of appointments. It is semi-officially stated that hereafter the advice of Senators and Representatives will be heeded unless they have shown themselves unsafe advisers in such matters. It is also explained that the civil service order is not intended to prevent the interference of office-holders after nomination are made. These concessions are forced from Mr. Hayes in various ways. The Senate refuses to act on his nominations, or even to refer them to committees. This is taken out of reform as promised by Mr. Hayes, and heart that it ever had. It will be well for the country when another party, not controlled by the office-holders who have fattened on the country for half a generation, shall come into power.

In the Senate Mr. Edmunds yesterday secured the passage of a resolution of seven Senators, to act with eleven Representatives, whose duty it shall be to consider the laws governing the counting and declaration of votes for President and Vice President.

Mr. Davis, of West Virginia, it has been agreed, shall have his special committee to investigate the Treasury Department. In the Senate, also, numerous bills have been presented authorizing the coining of silver dollars, to be legal tender to any amount in payment of debts, public or private, where their payment in gold is not by law or contract made binding. Senator Jones prepared an exceedingly elaborate report on the property and expedition of remonetizing that metal. This report was presented to Congress in March last, but is now published as revised during the time since then.

General Sherman yesterday returned from his extended Western trip, in good health. He thinks there will be no further Indian outbreaks of importance at present, and favors generous treatment of Chief Joseph, who, he says, conducted his warfare according to civilized ideas. How would it do to retire one of our Brigadier Generals, and give the place to Joseph? This report was presented to Congress in March last, but is now published as revised during the time since then.

The second laugh of the session—the first being given by Mr. Hale, as noted in my last letter—was at the expense of Mr. Garfield, late of the Eight to Seven Commission. The proposition having been made in the Senate to raise a committee of seven to consider the method of counting and declaring the Presidential vote, a resolution to appoint a committee of eleven to act with them was presented in the House. Mr. Garfield suggested a reduction in the number, but Harris, of Virginia, settled the question by saying the Democrats insisted on "eleven to seven this time."

COMMUNISM IN THIS COUNTRY.—The headquarters of the international has been removed to this country since the strike, and established in Chicago. This week the Nation says: "The socialists have been showing signs of renewed activity by holding a congress of the international at Ghent, in Belgium, consisting of about forty delegates, representing branches in all parts of Europe and in the United States. The discussions seem to have been attended with considerable difficulty, owing to the want of a common language, but in one way or another all were made acquainted with what was going on. The executive committee and the headquarters of the association are in Chicago, it appears, and a long communication from the committee, containing an account of the late strike here and its cause, was read by the secretary. It wound up by saying that 'great changes are proceeding in public opinion here,' and that 'it is evident to all that the false republic cannot last much longer in its present form,' and that 'unless the socialistic movement shall reform it, a monarchy, or rather an oligarchy, will be established in a few years'—which brings it very near. The platform adopted by the congress was the old one, with which the world is tolerably familiar, and which may be said in general terms to consist in the overthrow of all existing institutions. The fundamental plan is, however, the abolition of private property, and the 'appropriation' of land, machinery, implements, capital, and all, by the State or commune."

Women to be kept out of the Pulpit. The New Jersey Presbyterian Synod has sustained the findings of the Newark Presbytery censuring Dr. See for having allowed two women of another denomination to preach in his pulpit at the regular Sunday services. The vote stood 100 to 16. The vote against the See appeal was 85 to 25.

In York, Pa., on Saturday evening, a young man named Frank Frey, being wild with liquor, went into the laundry of the National House and shot two women. He then fired at three men in the street, and then went into a cigar store and fired one shot, when he was secured, after a struggle, in which he was himself shot in the hand. None of the wounded are dangerously injured.

NARROW ESCAPE OF FANNY DAVENPORT.—Shortly after Saturday midnight, an accident occurred on Broadway by which the lives of Mr. Augustin Daly and Miss Fanny Davenport were imperiled. An excavation had been made about two feet deep in the street, and in the South of this was a pile of earth and paving stones about three feet high. The usual light was displayed to warn drivers of danger, but the place was not enclosed. Mr. Daly and his companion were being driven from Fulton ferry by John Rogers, in a coupe at a brisk rate of speed. Through the carelessness of the driver the horse was driven directly upon the pile of stone, and plunging headlong over, was killed. The driver was thrown from his box as the coupe was suddenly thrown to one side. Luckily for the occupants the vehicle was not overturned and they escaped injury.

So completely have American watches superseded the Swiss in the eyes of the Swiss manufacturers have almost given up the idea of competing with them, and in consequence of American progress in the manufacture of silks, quite a depression has been caused among the manufacturers in that line of goods in that country also. Thus we find American goods gradually but certainly working their way into markets which hitherto have been monopolized entirely by foreign countries.

Samuel J. Tilden, who a little less than one year ago was elected President of the United States, but counted out by fraud, returned from Europe yesterday. He returned to find the country still unreconciled to that crime, the democracy everywhere triumphant, the Republican party hopelessly shattered, and the usurper himself disowned by the very men who counted him in. Well may this grand old man, as he is now called, say with Henry Clay: "I would rather be right than be President."—Baltimore Gazette, of Friday.

A fire in Portland, a suburb of St. John, N. B., early on Saturday morning, destroyed about 250 wooden houses, and made 2,500 people homeless. Of the houses, 700 suffered by the great fire in St. John last June. The loss is estimated at \$500,000. One man was killed and several persons were injured during the progress of the fire. After it had ceased two boys and a man were killed by the falling of the walls of a vault. It is supposed the fire was started by an incendiary.

A malignant epizooty in Southern Russia has destroyed hundreds of thousands of cattle, and is still raging. In many villages, according to a report of our Consul at Odessa, "scarcely a cow or an ox is left to the impoverished inhabitants."

The house of Mrs. Sarah Wolborn, at Myerstown, in Lebanon county, Pa., was burned on Saturday night. Mrs. Wolborn and her daughter, the wife of Dr. Deewe, perished by suffocation.

### LOCAL AND STATE AFFAIRS.

Sun rises at 6.44; sets at 5.16.

Moon changes next Monday.

Days' length 10 hours, 30 minutes.

Wednesday night will be a clear one.

The moon rises to-night at four minutes  
of ten.

Nice weather for wheat, but most too warm  
for corn.

Wilmington, it is said, is to have still another  
paper. This time it is to be a weekly and  
to be called *The Philadelphian*.

Wm. Stubbs died at the residence of his son-in-law,  
Simon Blood, near Camden, Kent co.,  
on the 11th inst., aged 100 years, 16 days.

Quite a number of gentlemen from Middle-  
town and neighborhood, went to Baltimore  
on Wednesday to attend the races at Pimlico.

Rumor says that the office of Consul General,  
at Paris, now held by Gen. A. T. A. Torbert,  
of Middlebury, is to be given to Gen. C. A. Arthur.

Mr. Clayton Thackeray, of Rilton, Md., talks  
of opening a butcher shop in Middletown,  
and promises, if he does, to sell the best cuts at 12 1/2  
cents a pound.

Some of the men who work on the railroad,  
found and returned to Mr. S. S. Holten, a few  
days ago, the little bank which was stolen from  
his house last summer.

### Second Forest Charge.

Divine service will be held in the Second  
Forest Presbyterian Church, at Armstrong's  
Station, to-morrow (Sunday) afternoon at 2 1/2  
o'clock. Preaching by Rev. Dr. Patton.

### An Act of Heroism.

In the terrible gas of the night of Oct. 4th,  
at Lewes, Pitt Elms, the pilot boat  
*E. C. Knight*, put out in a small boat with five  
boys and rescued twenty-two of the imperiled  
samen. This act of heroism should not be  
passed by without mention.—*Delawarean*.

### Some Old Folks.

Delaware numbers some pretty old people  
among its citizens. Of these Dell Noblett,  
Esq., of Wilmington, is the oldest. He cele-  
brated his centennial last week. Next to him  
comes Mrs. Denney, of Smyrna, who will, if  
she lives till that time, reach the 100th anni-  
versary of her birthday on the first of January  
next.

### The Trustees of the Poor.

A regular quarterly meeting of the Trustees  
of the Poor, of this county, will be held at the  
Alms-house on Wednesday next. Persons who  
have bills against the Trustees would consult  
their interest and secure payment by present-  
ing them to the member from the hundred in  
which they live, on Tuesday.

### A Petty Robbery.

On Wednesday night some prowling rascals  
broke into Messrs. E. B. Rice & Co's confection-  
ery store in the Town Hall, and carried off  
a few pennies—all the money that was left in  
the drawer—and some sugar. This is all, as  
far as has been ascertained, that they got for  
a lack entrance.

### Hammock Pumpkin.

"Joseph Price raised, for Sheriff Cooling, of  
 Cecil county, Md., this season, a pumpkin  
weighing 130 pounds. Hard to beat." The  
above item was sent us this week by somebody  
who, judging from his not sending us his name  
according to the well known requirement of  
all publishers, must be a sort of pumpkin  
head. Nevertheless the vegetable or the year is  
a pretty good sized one. We don't know  
which and don't want to be held responsible for it.

### The Drama at Odessa.

The entertainment by the Amateur Dramatic  
Association of Odessa, in the hall on Monday  
and Tuesday evenings, was a very pleasant  
and enjoyable affair. The audience was not  
so large as it might have been, but all present  
seemed to enjoy the acting very much. The  
play was entitled "Above the Clouds" and  
was pretty fairly acted, though we think it  
was scarcely equal to some others that we have  
seen the same company produce. A number  
of Middletown folks were present each night.

### Sheriff Sale.

On Thursday week, at Townsend, Sheriff  
Grubb, of New Castle, sold the estate of Jacob  
Deakney, in Thoroughfare Neck, as follows:  
The home farm, 160 acres, for \$2,500; the  
Kent County Mutual Insurance Co.; farm No.  
2, 232 acres, to Mr. Royer, of Smyrna, for  
\$4,100. Both the company and Mr. R.  
had liens upon the property. This is the  
second time this estate has been sold. At the  
first sale the home farm was knocked off to Dr.  
Daniel, of Smyrna, for \$3,000. That sale was  
set aside, we believe, for inadequacy of price.

### Swedish.

A Dover correspondent of *Every Evening*  
says that if the proposed agricultural society is  
started at Dover, that the Legislature will be  
asked for an annual allowance for its support.  
It is possible that such a foolish thing is con-  
templated?—*Smyrna Times*.

### We heard that some time ago and from a gentleman, too, who professed to have good grounds for saying so, but like the *Times* we thought it foolish and didn't say anything about it, but we don't know that anybody could be surprised at the nature of the "State Aid" which some people are anxious to have.

### A Case of Outrage in Mill Creek Hill.

On Tuesday morning last, Harriet Isabella  
Foreacre, daughter of Wm. Foreacre of Mer-  
maid, Mill Creek Hill, went before Esquire  
Frazer, in Wilmington, and swore out a war-  
rant for the arrest of Wm. Scott, col., on a  
charge of outraging her person. The girl's  
testimony was to the effect that, while her  
father and brother were out Scott went in the  
house and wanted to kiss her, offering her  
money for the privilege. She started to leave  
the room, when he caught her and accom-  
plished the outrage. He then fled. He seems  
to have been a frequent visitor to the house.  
Miss Foreacre is a little over 14 years old, but  
is unusually large for her age. She is intelli-  
gent looking and of pleasing appearance.—  
Scott, her assailant, is about 40 years of age,  
and is married, having a wife and two children.

bred Short Horns.  
L. P. McDOWELL.

On Thursday night week Benj. F. Evans,  
who resides just over the Virginia line, near  
Wagman, and about seven miles from New-  
town, was instantly killed by what is supposed  
to be the accidental discharge of his gun. He  
had been drinking freely, it is said, and it is  
supposed that on reaching his home, where he  
kept "bachelor's hall" Evans seized his gun  
for some purpose and accidentally shot him-  
self. The load entered the top of his head,  
shattering his brain and sent him to his eter-  
nal home. He was an excellent farmer and was  
in tolerably good circumstances. He was  
about 40 years of age, and was married and  
had a family. He was a quiet, gentlemanly and  
industrious man. He was well-known to all Ac-  
comac and Worcester counties.—*Newtown Record*.

## Miscellaneous.

APPROPRIATING SUCCESS.—It is the duty  
of every person who has used BOECHER'S GEM  
Syrup to let its wonderful qualities be known  
to their friends in curing Consumption, severe  
Coughs, Croup, Asthma, Pneumonia, and in  
all that threaten lung diseases. No person  
can use without Chamberlain's Remedy. Three  
doses will relieve any case, and we consider  
it the duty of all Druggists to recommend it  
to the poor dying consumptive, at least to try  
one bottle. Sample Bottles to try sold  
at 10 cents. Regular size 75 cents. For sale  
by Addison & Co., Middletown, and H. P.  
Baker, Odessa, Del.

NO FAILURES KNOWN.—There is no case on  
record where Dr. Morris' Syrup of Tar, Wild  
Cherry and Eucalypti, has failed to give relief  
inflammation. On the other hand, wherever it  
has been used by people, in severe colds, coughs,  
asthma, bronchitis, croup, whooping-cough  
and consumption, they are enthusiastic in its  
praise. Containing no opium or other danger-  
ous drug, it does not constipate, and is safe  
for all ages. All conditions of health.  
This is an important announcement, and the  
suffering are advised to heed it.—  
Trial size 10 cents. For sale by Addison &  
Co., Middletown, and H. P. Baker, Odessa, Del.

Also agents for Prof. Parker's Pleasant  
Witch Syrup, perfectly safe and extremely  
palatable. No physical result. Costs 25  
cents. Try it.

A SUCCESSFUL SPECIFIC.—The long and  
successful career of Dr. Williams' Pink  
Pill Cordial as contrasted with the  
speedy collapse of nostrums devoid of efficacy  
which have from time to time been puffed  
into vogue, during the twenty odd years that  
this celebrated medicine has been sold,  
affords a proof that the American public con-  
siders and respects its confidence in deserving  
articles only. The Pink Pill Cordial has long  
been recognized as the leading specific for  
Consumption, Bronchitis, Coughs, Colds,  
Asthma, Diphtheria and other extremely  
dangerous diseases. It is, moreover, a cer-  
tain, speedy, and safe remedy for  
Gripes, Liver Disorders, Scrofulous Affec-  
tions, Urinary Troubles, Gravel, Dropsy,  
Debility, Constipation, and Female Complaints.  
Constantly accumulating evidence of its un-  
equalled character establishes the fact that  
it not only entirely eradicates the dis-  
eases to which it is adapted, but also that its  
action is remarkably prompt and thorough.  
The crucial test of experience has demon-  
strated its reliability in every particular. Sold  
by all druggists. Principal depot, No. 916 Fil-  
bert Street, Philadelphia.

ordered and directed by the Register that the  
Administrator aforesaid, give notice of the  
granting of Letters of Administration upon the  
Estate of the deceased, with the date of granting  
thereof, by causing advertisements to be posted  
within forty days from the date of such  
Letters, in six of the most public places of the  
county of New Castle, requiring all persons  
having demands against the estate to present  
the same or abide by an Act of Assembly in  
such case made and provided. And also cause
